

Labor in The Pass Decides to Give Their Support to G. G. Coote, Progressive.

About seventy delegates from the various mining centres in The Pass gathered in Coleman on Saturday of last week, and after discussing the advisability of entering a Labor candidate in the field in this constituency, it was finally unanimously decided to give their support to the latest member, G. G. Coote, who had actively worked in conjunction with Labor and Liberals during the past session at Ottawa, to advance measures desired by the laboring classes.

Mr. Coote addressed the gathering after they had arrived at their decision, and gave a brief outline of the business transacted during the stormy session at Ottawa. He told of the fight made for old age pensions, unemployment insurance, immigration, reform of the senate, trial by jury of British subjects before deportation, etc.

The following gentlemen were appointed a campaign committee to work for Mr. Coote's re-election:—Wm. Hayson, Wm. Lees, Coleman; E. Morgan, T. Williams, Blairmore; F. Weir, T. Ruzicka, Frank; J. Brooks, H. Kaye, Bellevue; J. Stobbs, T. Price, Millerton; Frank Wheatley, Blairmore, and Wm. White, Coleman, chairman and secretary respectively.

Former Coleman Residents Married Recently at Trail.

The following account of the marriage of two former well and favorably known residents of Coleman, taken from the Trail Daily News, will prove of interest to many of our readers:—

SPELLERS—McDICKEN
A quiet informal wedding took place in the manse occupied by Rev. A. Wilson of Knox United Church here on Wednesday night at 9 p. m. The principals of the event were Mr. Thomas McDicken and Miss Victoria Spillers, two well known inhabitants of East Trail. Mr. McDicken, who works at the smelter plant on the hill, hails from Hamilton, and bonny spellings town, in Scotland, while Miss Spillers owes her birth to Belgium. Witnesses were the only attendants of the ceremony. The happy couple will take up their residence in Trail.

The Tory State of Mind

Among the other little matters the Conservatives will have difficulty explaining to the people of Canada will be the treatment by the Tory Senate of the Old Age Pensions.

Here is a Conservative Senate of old men who have voted themselves an annuity of \$4000.00 a year, free passes, travelling expenses, and all the perquisites and privileges of office, that turns around and denies the right of the Liberal government to care for the old people of Canada.

It is perfectly reasonable for a few ancient retired Tories to sit comfortably in the Senate and draw down \$4000.00 a year. But it is unreasonable and unthinkable for a seventy-year-old man of the masses to draw \$20.00 a month. He must go to the poor house.

But that is what the Conservatives in the Senate did and argued. Tory Senators killed the Old Age Pension Bill of the Liberal Government. And the Tories will kill every other piece of legislation that offers relief for the people rather than profits for the privileged few.

It is a state of mind, a philosophy of selfishness, that is inseparable from the Tory viewpoint and the Tory policy.

East Kootenay Power Co. to Spend \$1,000,000 on Power Plant Near Coleman

Announcement was made late last week that the East Kootenay Power Company will spend a million dollars in the erection of a steam power plant. This huge steam power station, work on which has already commenced, is to be located a few miles west of Coleman at the lake.

The plant, when ready for operation in the course of six or seven months, will use steam coal from the local mines, and the electric power generated will be turned into the high power hydro lines constructed by this company some years ago.

Increasing demands for electric power by industrial plants at Coleman and the likelihood of extending their hydro system to the prairie coupled with the lack of sufficient water power at Elk and Bull River, is the reason for the construction of this big plant in the Coleman district.

SCOUT NEWS

Come On Out!

"Echoes From Lee Lake"

The great decision on the first of August for the Crusader Troop, which shall it be: Lee Lake or the circus? Lee Lake won by a large majority.

The Scouts say that they will all have knapsacks for the next camp, since it would make a more comfortable pillow than a stone.

Perhaps that is the reason that the boys talked so much in their sleep the first night.

As they spoke in four different languages it was hard for the others to get in on their secrets. Anyhow, it seems that one boy had a hard time driving his cow. And the cow's name was Katy.

A Beaver Scout picked off some sentences of a sleeping Scout of the Peacock Patrol. As he did not understand the language, he went to the Peacock Scout in the morning for a translation. Then he told him who had paid it. (Wasn't that mean?)

Of course the Peacock Scout strongly denies that he spoke at all. However, we are not responsible for what we say in our sleep, are we?

The Beaver Scout who picked it up and remembered it until morning may be heard of some day as an apt linguist.

Coleman High School pupils are asked to send in their examination results to the principal at once.

Young lady (after violent dance): "There! My heel's gone! That gets me this evening!"

Youth: "Oh, darn it! Don't you carry spare parts?"

Mothers have to be so careful these days. One lady in Coleman district forbids her son's girl friends the use of the parlor because their cigarette ashes get all over the carpets!

A lawyer is a fellow who finds the loopholes in an ironclad contract.

Liberals Favor Coote's Candidature as Low Tariff Supporter for Macleod.

About sixty representatives of the Liberal party from the Macleod federal riding gathered at Macleod on Friday last and decided not to nominate a candidate in this constituency owing to the fact that the Progressive candidate, G. G. Coote, is a low tariff supporter, and if a Liberal was put in the field it would tend to split the low tariff vote.

A number of resolutions were passed expressing confidence in Hon. Mackenzie King as leader of the Liberal party, and endorsing his policies and the legislation of the past session; expressing approval of the 1926 budget and a further downward revision of the tariff.

Support Low Tariff Man

The resolution dealing with giving their support to the low tariff candidate already in the field, Mr. G. G. Coote, of Nanton, read as follows:—

"Whereas political opinion in the forthcoming campaign is largely divided into two classes; one favoring an increase in tariff, and the other tariff reduction, and whereas there is now in the field in this constituency a candidate whose views it is understood are in favor of low tariff, and whereas we deem it inadvisable to divide low tariff support; Resolved that we, the Liberals of the Macleod constituency in convention assembled, do not nominate a party Liberal candidate."

Mr. H. Rosenberry, of Pincher Creek, president of the federal Liberal association, presided at the gathering.

Charles Nicholas Starts Big Merchandising Event

Commencing tomorrow, (Friday) Chas. Nicholas starts his big annual End of the Summer Clearance Sale, for which hundreds of large posters were printed by The Journal office this week.

This yearly selling event put on by this store is always looked forward to by the purchasing public of Coleman and the people of surrounding towns, as they have learned from experience that this store offers many splendid bargains at this big selling event. Perusal of this year's sale bill will prove that Mr. Nicholas has more than lived up to his past reputation in this respect, as many splendid bargains are listed.

Married

JANAK—NATCHEL.

The Holy Ghost Church, Coleman was the scene of a quiet pretty wedding on Monday morning of this week, when Cecilia Janak, eldest daughter of Mr. and Mrs. George Janak, Coleman, became the bride of Mr. Stephen Natchel, a former resident of Michel now residing in Coleman.

The ceremony was performed by Rev. Father McCormick, and only the immediate relatives and close friends of the contracting parties were in attendance.

In the evening a wedding dance was given in the K-P. hall in their honor and was largely attended.

We understand the happy young couple will shortly take up their residence in Calgary.

Isn't it about time the Conservative party in The Pass trotted out their "duty on coal" plank which formed the basis of their platform in this district during the federal election last October?

LOCAL, PERSONAL AND GENERAL NEWS

Michel and Lethbridge football eleven play the semi-final round for the Bennett Shield in Lethbridge on Saturday.

The Eastern Star is giving a dance from 9 to 12 p. m. on Thursday, August 26th, in the I. O. O. F. hall. Masons and families and Eastern Stars and families are cordially invited to be present.

McGillivray Superintendent Off For Bonny Scotland

Mr. D. Davidson, Superintendent of the McGillivray Creek Coal & Coke Company, is leaving Saturday night on a three months visit to his old home at Dunfermline, Fifeshire, Scotland. Here's wishing you a bon voyage Dave, and safe return before the curling season opens.

Mr. and Mrs. A. M. Morrison, Miss Ruth Morrison and Miss Grace MacKinnon, arrived home Wednesday night from a three weeks auto trip to Vancouver and other Coast points.

Mr. Paul Baron, who has been living in Winnipeg for the past six or seven months, arrived back in Coleman on Saturday last. Paul states that the big prairie city is booming and that crop conditions in Manitoba are excellent.

"Ypres," a story of the Great War, showing how the Canadians stood their ground and held the salient despite the terrific gas and shell fire attack launched by the Germans, is to be shown at the Palace and Grand theatres on Saturday and Monday.

LADIES! Do not fail to see the new special attachments for the Hemstitcher and Embroiderer. Fits all sewing machines and is moderate in price. At Mrs. H. E. Gate's store this week and next Monday. 52 11 p.

Mr. J. Fairhurst, of Windsor, Ont., a brother of Mr. Jas. Fairhurst, 6th street, arrived from the East Sunday last, and is the guest of Mr. and Mrs. James Fairhurst.

The Town Band will render a Sacred Concert at Crow's Nest Lake on Sunday, August 22nd, commencing at 2.30 p. m.

Hope to Settle Coal Strike

Prospects at this writing seem much brighter for a settlement of the long drawn out coal strike in Great Britain. A joint meeting of the miners, operators and representatives of the Govt., takes place today, and high hope is held out that a solution will be arrived at speedily.

Mrs. T. Brennan arrived home on Wednesday after spending a two and half months vacation with her daughter, Mrs. G. Phillips, of Detroit, U.S.A.

Miss Enid B. Cole, of Bellevue, graduate of the Bush Conservatory of Dramatic Art, Chicago, assisted by the Sereaders Orchestra, of Bellevue, is giving a concert consisting of vocal and instrumental numbers and character readings at Natal on Tuesday of next week. Miss Cole expects to put on the concert in Coleman and other towns in The Pass in the near future.

Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unexcelled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Franche Bros., Lethbridge.

Ladies interested in new Millinery—and what lady isn't!—should read Mrs. H. E. Gate's advertisement in this issue announcing her Fall and Winter Millinery opening.

Mr. J. Downie, of the staff of the Canadian Bank of Commerce, who has been spending a vacation at Banff, returned to town on Saturday last.

Mr. Alex. Cameron, looking hale and hearty, arrived Saturday from spending the summer at his fruit ranch at Wyndel, B. C. He will spend a week in Coleman on business before returning.

The Labor Party in The Pass showed good judgment at their convention at Coleman last Saturday, in endorsing the candidature of G. G. Coote, the late sitting member for the Macleod federal riding. Coote is a sane and safe man for Labor and all forward looking people to vote for and support.

Mr. W. N. Donaldson, of Kimberley, B. C., spent the week end in Coleman.

Mr. and Mrs. Wm. Bell and daughters, May and Margaret, are leaving on Saturday of this week on a three months' holiday in bonny Scotland. Mr. and Mrs. Bell will visit their old home, East Wemyss, Fifeshire, during their vacation. Their many friends wish them a pleasant trip and safe return.

Dr. and Mrs. Kines left last week for Portland, Oregon, where they will make their home.

Patriotism is that little conviction each citizen cherishes that helps save the country.

Mr. J. Galbraith, who has been manager of the local branch of the Canadian Bank of Commerce during Mr. W. L. Rippon's absence on holidays during the past three months, leaves this week on a holiday tour of the Western States before returning to Calgary.

At the United Church on Sunday the subject of the address at the evening service will be "The Parable of the Last Judgement". At the eleven o'clock service "The Valley of Dry Bones" will be the topic. It is estimated that at the evening service those preferring a seat at the back of the Church should come early.

Mr. and Mrs. Walter Bosworth left last Saturday for Vancouver, B. C., where they intend residing in future.

Mrs. Jas Fairhurst and Miss Edna, returned last Wednesday, from a week's visit to Taber and Lethbridge.

Mr. and Mrs. A. Menzies and family, of Lethbridge, Alta., are the guests of Mr. Menzies sister, Mrs. J. M. Allan, Park Terrace, for a few weeks.

Two very pretty girls met on the street and kissed each other rapturously. Two young men watched the meeting. "There's another of those things that are so unfair," said one.

"What is that?" said his friend. He pointed to the scene; "Women doing men's work."

Mr. and Mrs. R. G. Powell, who have been visiting with Mrs. Powell's mother at Agassiz, B. C., for a few weeks, returned to Coleman on Saturday of last week.

The Sunday School of St. Paul's United Church will hold their annual picnic on Wednesday of next week at the Lake. Detailed announcements will be made later.

Mrs. G. L. Wheatcroft and children, who have been residing at Drumheller for the past few years, arrived back in Coleman on Friday of last week and Mr. and Mrs. Wheatcroft and family will now make their home at the old Wheatcroft ranch, west of town.

St. Paul's United Church of Canada

Sunday, August 22nd
10 a. m. Sunday School.
11 a. m. Morning Worship.
7 p. m. Evening Service.
You will enjoy the congregational singing.
Strangers and visitors cordially invited to the services.
H. J. Devan, Minister.

KING DEPLORES ANY SUGGESTION OF ANNEXATION

Victoria, B.C.—"I stand for the British constitution through and through. I am not in favor, never have been in favor, and never will be in favor of annexation," declared Dr. H. H. MacKenzie King, "I make no state-ment," he added, "because there has been a deliberate attempt to mislead the people of this country."

"I believe that this country can have no greater destiny than as one of the free, self-governing nations of the British empire. That is the highest destiny we can have."

"The greatest service to mankind could be rendered by having two nations upon the continent of North America. Canada is in the happy position of being able to contribute to the peace of the world, both by example and by her position of inter-venor of the United States to Great Britain and of Great Britain to the United States."

"Anyone who brings up the question of separation must bear the responsibility for the results."

Hon. Dr. J. H. King, minister of public works, in the late government attacked Dr. Tully, minister of agriculture, and other Conservative members from British Columbia for their attempt to block the nation-wide uniform old age pension bill.

"After September 14, when parliament meets, the old age pensions bill will be re-introduced," declared Dr. King.

Borah Predicts

Economic War

Sees No Reason Why U. S. Should Cancel War Debts

Nampa, Idaho.—Predicting the next five years will mark the most severe economic war history has ever recorded, Senator William E. Borah, chairman of the senate foreign affairs committee, in an address here, declared that in view of this impending struggle there was no just reason for the United States to give up war debt collection.

"The senator said the generosity of the United States toward foreign governments during the great war had no parallel," and added that the attitude of debtor nations would cause the senate to reverse its decision and reject the world court if it were voted on today. He made a scathing attack on United States adherence to the world court, which he described as the agent of surrender and slavery of the League of Nations, "which is controlled by the four great powers now warring us down as Shylocks and usurers."

Further Tax Reductions

Robb Predicts More Taxation Reductions If Liberals Are Returned

Toronto.—Hon. J. A. Robb, former minister of finance, speaking at a Liberal rally in Massey Hall here, stated that if the Liberal party were returned to power in the September general elections there would be further reductions in various forms of taxation with the appearance of their first budget.

"By reductions made in the last budget," Mr. Robb said, "some \$30,000,000 were released this year for national investment on the part of the citizens, and wouldn't it be a fine thing if even more were released this year?"

Spain and Italy Sign Treaty

Provides For Arbitration On Questions Arising Between Them

Madrid.—Minister of State Yanguas revealed that under the recently signed arbitration treaty between Spain and Italy a commission of five members has been constituted to decide questions arising between the two nations. Spain and Italy each will have one representative on the commission. The remaining three will be subject of for foreign nations. They will be named with the mutual consent of Spain and Italy.

Defeats Two More Swimmers

Cape Gris Nez.—The turbulent English Channel again has turned back two persons who aspired to swim it. They are Miss Jean Stone, a French woman, and Omer Perrault, a Canadian.

Starting from Cape Gris Nez at 10:15 o'clock at night they swam until 4 o'clock in the morning, when the heavy sea and rain squalls compelled them to abandon their attempt to get across to Dover.

W. N. U. 1612

Deals With Robb Budget

Hon. Chas. A. Dunning Addresses Audiences in Ontario

Stratford, Ont.—There was a large gathering at the town of Mitchell near Ilen, Charles A. Dunning, minister of railways and canals in the king administration, who spoke in the interests of Fred G. Sanderson, Michael Haggerty, president of the South Perth Liberal Association, presided, and gave a brief address, did also the candidate, Mr. Sanderson. Mr. Dunning claimed that the people of the east better than the people of the west knew the west, and gave as the reason the fact that so many residents of the west were natives of Ontario.

Mr. Dunning spoke at length on the trouble in the customs department and praised the work of the late Hon. George H. Bolvin. He dealt at some length with the Robb budget and declared that it was the best the country had ever seen since confederation, particularly in the benefits which had been given to the man of modest means. He gave a somewhat detailed statement regarding the tariff plan and plan and declared that such a board was necessary to secure information so that parliament might have some definite basis on which to judge changes in tariffs.

No Interference Reported

Sir Henry Thornton Says He Has No Complaint to Make Regarding Political Interference

Brandon, Man.—Premier Melchior produced telegrams exchanged between himself and Sir Henry Thornton, president of the Canadian National Railways, in reply to allegations of political interference with the Canadian National management. Mr. Melchior read the correspondence at his morning here. It opens with the following telegram from Mr. Thornton to Sir Henry, dated August 6:

"Statements are being made that the present government, including myself, have been and are interfering with the management of the National Railways. I ask you to wire me whether there is the slightest foundation for these assertions and if so to advise me what it is."

Sir Henry's reply follows: "I have received your telegram of August 6 reading as follows: (here Sir Henry quotes the text of Mr. Melchior's message). Sir Henry then adds: 'In reply I have to say that the administration of the Canadian National Railways has no complaint whatever with respect to the attitude of the present government or, indeed, the preceding government in their relation to the National Railway system.'"

Swedish-Austrian Treaty

Is Eighth in Series to Make War Illegal

Stockholm.—An unlimited arbitration treaty making war illegal under all circumstances has been concluded between Sweden and Austria, the eighth in a series of somewhat similar nature recently signed by the Swedish government with various European powers. The previous ones were with Norway, Finland, Denmark, Poland, Belgium, Czechoslovakia and Germany.

Returned After Many Years Owen Sound, Ont.—A Parks of the city, received through the mail a letter which he posted on Sept. 27, 1888, almost 25 years ago, to his brother-in-law James Stewart, at that time resident in Marquette, Michigan. Mr. Parks mailed the letter from Williamsford where he was in business at that time and it had never been delivered.

Count Plunkett's Daughter Arrested Dublin.—Flora Plunkett, daughter of Count Plunkett, well known Republican member of the Dail, was among a dozen Dubliners arrested on charges of the theft of books and papers belonging to military leaders. They also were charged with the possession of arms and remanded for a week.

Not An Ultimatum Sofia, Bulgaria.—The diplomatic representatives of Jugoslavia, Rumania and Greece, have handed a collective note to the Bulgarian foreign minister regarding the activities of the Bulgarian irregulars. The substance of the note was that it is known that it is not in the nature of an ultimatum.

Has Month's Immunity Ottawa.—A period of one month, a motorist who is a resident of the United States, may bring his car into Canada without having to tie a bond with, or pay duty to, the Canadian customs officials.

Canada Has Received Another Gold Shipment

Makes Over Six Million From New York In Two Weeks

New York.—A shipment of \$1,000,000 of gold to Canada has been announced by the Bank of Montreal, a continuation of the movement that started about two weeks ago in response to the strong premium on Canadian exchange. The Canadian five thirty seconds of one per cent which is about the level at which the bulk of the recent shipments were made.

A total of \$5,500,000 of gold has been shipped to Canada since the beginning of the present movement. The strength in exchange is attributed to the heavy financing that was done here recently on behalf of Canadian industries.

New Air Service

Passenger Aeroplane Flight From Detroit to Winnipeg

St. Paul, Minn.—The proposed freight and passenger aeroplane route from Detroit to St. Paul was extended to Fargo, N.D., and Winnipeg, Man., under plans made at a conference of officials interested in the Ford reliability aeroplane tour.

The conference decided to start the new air service next spring. Pilots of the planes participating in the reliability tour turned up their machines this morning for the hop today to Des Moines, Ia.

MANY ARE KILLED AS RESULT OF FIGHT IN MEXICO

Mexico City.—The department of the interior announces that it has no knowledge of the incidents mentioned by Archbishop Leopoldo Ruiz y Flores who has arrived from Michoacan, has informed the Archbishop that two Catholic priests and between 27 and 37 Catholic citizens were executed by the military authorities on August 1 and 2 on a charge of heading an uprising growing out of the religious situation.

The archbishop reported that the disturbances occurred in three towns in the states of Michoacan and Guanajuato. A battle between soldiers and citizens lasted for a day in the town of Zahuayo. The bishop estimates that probably about 50 persons were killed in the battle. The other two towns where disturbances occurred were Acambaro and Tlapacote in the state of Guanajuato. Archbishop Ruiz y Flores said the people of Zahuayo refused to deliver the Catholic churches to the municipal committees appointed to take them over after the priests had ceased to function on July 31. A force of 50 soldiers arrived from a nearby garrison and were fired upon by the people, who took up positions in the church towers and house roofs and engaged in a day's exchange of shots. The next day federal reinforcements arrived and subdued the Catholics. The soldiers then executed two priests and the leaders of the citizens.

Returned After Many Years Owen Sound, Ont.—A Parks of the city, received through the mail a letter which he posted on Sept. 27, 1888, almost 25 years ago, to his brother-in-law James Stewart, at that time resident in Marquette, Michigan. Mr. Parks mailed the letter from Williamsford where he was in business at that time and it had never been delivered.

Count Plunkett's Daughter Arrested Dublin.—Flora Plunkett, daughter of Count Plunkett, well known Republican member of the Dail, was among a dozen Dubliners arrested on charges of the theft of books and papers belonging to military leaders. They also were charged with the possession of arms and remanded for a week.

Not An Ultimatum Sofia, Bulgaria.—The diplomatic representatives of Jugoslavia, Rumania and Greece, have handed a collective note to the Bulgarian foreign minister regarding the activities of the Bulgarian irregulars. The substance of the note was that it is known that it is not in the nature of an ultimatum.

Has Month's Immunity Ottawa.—A period of one month, a motorist who is a resident of the United States, may bring his car into Canada without having to tie a bond with, or pay duty to, the Canadian customs officials.

Paints Lake Louise Against Time The scenic beauty of Lake Louise, although portrayed on canvas many times by celebrated artists, still makes excellent material for the artist who has done their best to reproduce the colors surrounding this gem of the Rockies and make it realistic enough to draw the admiration of the general public.

The above photo shows Belmore Brown, of Banff, the well-known Canadian artist, at work on a picture of Lake Louise from a balcony of the Canadian Pacific hotel named after the lake. Mr. Brown is painting this picture for an exhibition which will shortly take place in England, and has promised to have it ready in two weeks' time.

SUBJECTS WHICH WILL COME UP AT EMPIRE PARLEY

London.—Forecasts in the news papers here with regard to the subjects to be discussed at the Imperial conference in October which assembly are based more or less on semi-official information reveal little more than was suggested a short time ago.

With reference to the status of the dominions, The Manchester Guardian says the subject possibly will be raised by Canada or South Africa but if raised, it certainly will be raised by the Irish Free State.

As to the alleged anomaly connected with the system of the continuance of the system of the governor-general signing all the dispatches from the Irish to the British Government, The Guardian says it regards this as really not of much importance.

Much more important, The Guardian continued, is the declaration that "no one shall possess power to have any say in regard to the work of a Dominion or to veto it, except the Government of that Dominion." In practice this is recognized, The Guardian says, but what is demanded is an explicit declaration that this is part of the British Commonwealth constitution. The Guardian notes also that the Irish Free State has taken a firm stand against appeals from Irish courts being carried to the judicial committee of the privy council. This, The Guardian adds, is by no means a non-contentious issue within the dominions other than the Irish Free State.

Studying Conditions For British Women

Lady Cecil is Spending Some Time in Western Canada

Winnipeg.—The Hon. Lady Cecil, C.B.E., is travelling across Canada in the interests of the society for the overseas settlement of British women. Lady Cecil spent a day or two at Calgary, studying opportunities for settlement of British women as domestic, nurses or nursing governesses, and making a general survey of the success of the work in which she is interested. She visited at the Chateau Lake Louise, going from there to Kelowna to inspect the hostel which her society has established in the Okanagan. This is Lady Cecil's first visit to Western Canada, though she and her daughter have spent several months visiting in the east. Their home is at Lytchett Heath, Dorset, with a town house in London.

Report is Denied Winnipeg.—Reports that the Saskatchewan Wheat Pool had withdrawn from the central selling agency of the three western pools were denied here by D. L. Smith, selling agent, who said "there is no truth for the report."

Will Aid Settlers Victoria.—By order-in-council the cabinet has voted five hundred dollars to aid settlers who suffered losses in a recent tornado in the Spring Lake district of the Carleton country near Prince George.

Siberian Slayers Sentenced To Death

Gang Killed Whole Families and Peasants Were Tortured

Tyumen, Siberia.—Ten desperadoes were sentenced to death here for the murder of more than 100 victims. Chief among the condemned was the notorious woman, Ekaterina Platanova, wife of the leader of the gang, who himself was known to the inmates of the prison as "Jack the Ripper of the Pral Mountains."

The woman was accused of killing her victims with an axe. The robbers had been organized into a strong band of several scores with rigid rules, the slightest infraction of which was punishable by death. For two years the district had been terrorized by these arch-criminals who are accused of having killed whole families.

They attacked government warehouses, strangled the guards and seized stores of vodka and textile which they sold at a great profit.

The crimes of these robbers and of others who emulated them grew so frequent and so bold that the Soviet minister of internal affairs sent a commission to Tyumen with force strong enough to restore order.

Tyumen is the oldest Russian town in Siberia, about 120 miles north-west of Tobolsk. It formerly was of great importance as a depot of Russian-Chinese trade.

Calls King A Coward

R. B. Bennett Uses Some Harsh Words At Woodstock Meeting

Woodstock, Ont.—Speaking at a convention of North Oxford Conservatives here, Hon. R. B. Bennett, federal minister of finance, charged that by seeking a dissolution "in order to escape the verdict of the House of Commons on the Stevens' amendment," former Premier Mackenzie King had proven himself to be "the greatest coward who has ever held the office of prime minister of Canada."

"I use these words deliberately," said Mr. Bennett. "It is ridiculous to say that he asked for a dissolution in the public welfare and because of a provincial election. There was a breaking away from his Progressive supporters because the public welfare was more to them than the fortunes of a political party. A ballot for the Liberal party is a ballot to condemn the conduct of Mackenzie King."

INCREASE SHOWN IN PRELIMINARY CENSUS REPORT

OWEN.—An average increase of nearly five per cent. in the population of twenty federal electoral districts in Manitoba, Saskatchewan and Alberta, as compared with 1921 figures, is shown by the preliminary census of the three prairie provinces taken as of June 1. The total population for these 20 electoral districts is given as 862,556, contrasted with 735,369 in 1921.

This announcement is made in a preliminary statement of population issued by the Dominion bureau of statistics. Further announcement of census of the thirty-four remaining electoral districts in these provinces will be made shortly.

Ten federal electoral districts in Manitoba, five in Saskatchewan and five in Alberta, are included in the statement. In Manitoba, all electoral districts covered show increases over the 1921 population. These are Brandon, Ligar, Marquette, Selkirk, Springfield, St. Boniface, Winnipeg North, Winnipeg North Centre, Winnipeg South and Winnipeg South Centre.

In Saskatchewan, Last Mountain, Long Lake, Regina and South Battleford recorded increases, while Swift Current showed a decrease of 239. Swift Current city, however, shows an increase as contrasted with its population in 1921, of 655.

In Alberta, Calgary East, Calgary West, Camrose and Vegreville registered increases. Medicine Hat shows a reduction of 7,915. The city of Medicine Hat, though, shows only a reduction of 215 of this total. Of the 54 cities and towns mentioned located in the 20 federal electoral districts covered in the statement, 35 show increase in population over 1921 figures, while 19 show decreases.

The figures now given, it is declared, pointed out, are subject to correction, as certain adjustments on account of closed houses and absences, as well as of the population of certain Indian reserves which were reported by agency only, remain to be made.

HOPE HELD OUT FOR TERMINATION OF MINE STRIKE

London.—Without any visible basis except hints in the latest utterance of the coal secretary of the Miners' Federation, that the miners were "reaching the end of their powers of resistance and, therefore, it was advisable to get the negotiations resumed if they were not to be defeated by starvation, rumors of peace were in the air today. Almost in the same breath, however, Mr. Cook maintained the same unyielding attitude on the questions of hours and wages as he did when the coal miners' strike began May 1.

Mr. Cook and others of the miners' leaders are anxious at the delegate conference to secure a free hand for any possible renewal of negotiations.

"Personally, I hope the conference will recognize the need for taking full responsibility and decide either for negotiations or what methods should be adopted to secure ammunition—that is money—and to get an embargo on coal."

The embargo on coal is a reference to the patent fact that enormous coal importations are being made, and this is gradually killing the strike.

Ontario May Hold

Election In November

Will Depend Largely On Results Of Federal Vote Says Toronto Paper

Toronto.—"Vote of Ontario will go to the polls to elect a legislature, October 25 or November 4, with the latter date favored," The Toronto Telegram states in a news story. "From very reliable sources it was learned that a provincial election is inevitable, providing the Dominion election shows Ontario is still strongly Conservative. Possibility of a reduction in the number of Conservative seats in the next House of Commons will result in by-elections in the local house and another session before the plunge is taken."

Prevented from going to the country in June when he so desired by reason of the turmoil in Dominion politics," continues The Telegram. "Premier Ferguson now is ready to take the jump as soon as the smoke has cleared away from the political mire of Ottawa. Favorable results in Ontario from a Conservative standpoint will be the signal for an immediate general election in Ontario, it is said."

Seven seats are vacant now in the Ontario Legislature. There probably will be two more vacancies shortly as the result of resignations of members who will be candidates for the Dominion House.

Boy Was Kept Prisoner

Shackled For Months With Chain Around His Neck

Newark, N.J.—Shackled daily for months with a heavy chain about his neck, eight-year-old Salvatore Rossetti, one of the ten children of Mrs. and Mrs. Luigi Rossetti of this city, was freed when his mother reported his imprisonment to the police.

The lad, said by his parents to be unmanageable, was chained every day to an old bootblack stand in the rear of his home, according to neighbors. After his release the boy fled and a search failed to discover his hiding place.

Funeral Of Hon. George Bolvin Granby, Que.—Attended by the secretary of the government and representatives of the governor-general, the late parliament, political colleagues and the late Hon. George H. Bolvin, ex-minister of customs, were brought to his birthplace and after the mass at the parish church, were committed to the grave, where the body will rest beside those of Mr. Bolvin's father and mother.

Will Welcome Channel Swimmer Bilsden, Germany.—This little Wurttemberg town, near Stuttgart, is all excitement over the promised visit of Gertrude Ederle, the New York girl who recently swam the English Channel, to see her grandmother. Officials, athletic clubs, and singing societies will vie with the 77-year-old Mrs. George Ederle, owner of the Laube Inn, to prepare for a hearty reception.

To Control Phones Brussels, Belgium.—The telephone and telegraph agencies of Belgium will be placed under the management of an organization similar to that controlling the railways, under the terms of a law the government has decided to introduce in parliament.

FACTS ABOUT THE CUSTOMS SCANDAL.

Conservative speakers and the Tory press are making much of the Customs Scandal. Just what are the facts?

Certain employees of the Dept. of Customs—civil servants, most of whom are Conservatives appointed by Conservative governments under Horden and Meighen and kept in office by a Conservative Civil Service Commission—have been found guilty of grafting, allowing goods to be smuggled into the country, and in other ways abusing their official positions.

No member of the late Liberal Government was implicated in these wrong doings.

The MacKenzie King government over two years ago—according to a statement made by Mr. J.S. Woods, worth, Labor member for Winnipeg,—started to investigate conditions in the Customs Department, and the charges made by H. H. Stevens were founded on information secured by investigators appointed by the late Liberal Government.

The evidence adduced at the recent customs probe went to prove

that smuggling, whisky running and other forms of evading the law had been rampant for many years and that certain civil servants in the Dept. of Customs had become wealthy by winking at this lawlessness.

This sorry state of affairs did not grow up overnight, nor did it originate under the MacKenzie King administration, as is evidenced by the fact that the deputy minister of customs was appointed by a Conservative government many years ago, the notorious Bissonnet was appointed by the Conservatives, in fact the great majority of the officials in the Dept. of Customs are Conservatives appointed by Conservative governments, and kept in their positions by a Civil Service Commission which also is a creation of the Conservatives.

The MacKenzie King administration had the courage to institute an investigation and made a start of cleaning up the mess by removing those found guilty from office. Thus the matter was brought to the surface, and an election being on the horizon, Conservative politicians saw a golden opportunity to make political capital out of the

matter, so there was born the so-called Stevens' Custom Charges—two years old!

LOST BUSINESS

When one loses his watch, pocketbook or other valuable, one of his first thoughts is to advertise. He wants the community to know that he wants something, and that something is his lost possession.

Is it any less needful to advertise for lost business—business that is lost because the other fellow has been alert enough to advertise and find it? Business is always potentially lost from the business man or firm that does not continually put into active use the tested methods of establishing patronage. One of these methods is advertising; another is courtesy, another service, another honest value and quality goods. Successful business people let the world know of their products through advertising.

"Ain't" is a proper word to use if you know better.

You may be born intelligent but you've got to learn to think.

Valuable Tree Planting Work Is Having the Effect Of Changing the Prairie Landscape

A gradual change in the general prairie landscape is taking place in Western Canada as a result of the co-operative tree-planting work being carried on by the forestry branch of the department of the interior. This change is particularly striking to those who were familiar with conditions as they existed in Manitoba, Saskatchewan and Alberta some twenty-five years or thirty years ago. Thousands of shelter-belts have been established from seedlings, cuttings established from seedlings, cuttings and transplants distributed from the nursery stations at Indian Head and Sutherland, Saskatchewan, and the work has grown to such proportions that during the spring of 1925 over 5,000,000 seedlings and cuttings of such varieties as maple, ash, caragana, poplar and willow were sent out. In addition to these broadleaf varieties over 50,000 evergreen spruces and pine trees were distributed at nominal cost for general farm planting and about 60,000 for planting on forest reserves in Manitoba and Saskatchewan.

The progress of this important work will be better realized by a brief statement of the results obtained since it was inaugurated in 1901. The first distribution consisted of 25,000 seedlings supplied to 47 farmers in Manitoba and the Northwest Territories. In 1902 this was increased to 166,000 plants to 196 farmers. The demand grew rapidly in subsequent years and in 1916 the number sent out had reached 1,450,000. Since then the annual distribution has continued between four and a half million and five and a half million, the total distribution for the twenty-five years being 87,205,000 trees to 86,200 farmers scattered over the three prairie provinces.

During recent years the distribution has been carried on from two stations Indian Head making shipments to Southern Manitoba, Saskatchewan and Alberta, and Sutherland to the northern districts. Careful check of all material sent out until the plantations can be considered as fairly well established and no trees are allotted to an applicant until inspection and inquiry indicate that land has been properly cultivated in preparation to receive the young trees. In most cases special plans are prepared in the office of the tree planting division at Indian Head during the winter months for the guidance of the individual planters in the spring. This season some 3,297 plans were so prepared and during the summer the inspector will visit those who received plans to see that the stock has been properly planted and is being given reasonable care and cultivation.

The tree planting inspectors started out on their annual trips over their respective territories in the latter part of May and about 11,200 farms are on their lists to be visited. A staff of eight inspectors will be engaged in this work until the winter sets in, each visiting an average of 1,400 prairie farms. Favorable weather conditions last year cut short the inspection period, but reports show that 5,700 plantations were visited of which over 73 per cent. were in first-class shape, 20 per cent. fair, and only a little over 6 per cent. neglected. Those classed as fair could, with a little care, and attention on the part of the owners, be put in good shape. The effect of tree planting on the social and economic life of the prairie provinces is considerable. Shelter belts have made the homestead more home-like and comfortable, while by checking the high prairie winds and conserving moisture the production of the farm is increased. The farmers of Western Canada quickly realized the value of planting trees and in the large and steady demand for material is seen their approval of this important work.

Russia Purchases Canadian Horses
From 500 to 600 Alberta horses are being purchased for shipment to Russia. These are animals weighing from 1,000 to 1,100 pounds, rather light for the Alberta demand, but just what the Russians want. This is the nature of a test order and the very satisfaction it is expected that repeat orders on a larger scale will be received.

Old Lady (to booking office clerk):—"What time does the three o'clock train go?"
Clerk (smiling):—"Sixty minutes past two."
"There. I told Mary the time was changed."

Creamery Buttermaking

Composition of Product Must be Controlled Within Narrow Limits.
Commercial buttermaking in Canada is not the easy task it was a comparatively few years ago when all that was necessary was to manufacture butter having good flavor, body, texture, color, etc., regardless of the percentage composition of fat, water and salt. According to a new bulletin on Canadian creamery buttermaking issued by the dairy branch of the department of agriculture, the butter-maker of today is required not only to manufacture butter having good workmanship, but also to control the composition of his product within very narrow limits. For instance, economic conditions demand that the moisture content of butter be not less than 15.2 per cent., while butter containing more than 16 per cent. water or less than 50 per cent. fat, is illegal. The salt content of butter is also very important and must be carefully regulated. Every detail in the process of making butter of high quality, fulfilling all marketing requirements is described in the new bulletin, which may be obtained from the Publications Branch of the Department of Agriculture, Ottawa.

Seed Inoculation

The Value of Inoculation Has Been Ample Proved.
The Dominion agricultural bacteriologist recommends a more general use of pure cultures of legume bacteria for seed inoculation. Of a total of about five and a half million acres sown to legume crops in Canada, only about 80,000 acres have been sown to inoculated seed. The bacteriologist points out in his latest report, which may be obtained from the Publications Branch, Department of Agriculture, Ottawa, that the value of inoculation has been amply proved in Canada and elsewhere. Reports from farmers in Canada show that definite benefit has been derived from it. It is especially important in new districts where seedling of alfalfa, red clover, alfalfa and sweet clover are unsuccessful without inoculation. The increased resistance of inoculated crops to winter killing is, especially important. Pure cultures of legume bacteria may be obtained from the different experimental farms and stations.

Refers to the explorer, says that in the course of almost 12 years spent in the Arctic regions, his diet was 100 per cent. meat the greater part of the time.
A banana plant may grow 10 feet in a year.

The standardization of cheese hoops is also postponed for further discussion.

Orient Wants Wheat
China Will Buy More Canada Wheat This Year.
Export of Canadian wheat and flour to China will this year show an advance of at least 25 per cent. over last year's trading, according to Charles M. Sun, Tien Tien, China, president of a large Chinese milling company. Enroute to Vancouver where he will buy a quantity of Canadian wheat, Mr. Sun passed through Winnipeg recently.

"This will be the biggest year yet in the grain trade history between Canada and China," he said.

English Teachers Tour Canada
For the purpose of gathering first hand information regarding the educational system of Canada, two English schoolmasters, H. Moorhouse and G. A. White, will travel through Canada to the Pacific coast. Another educational tour is being undertaken by a party of experts from England, under Rev. H. Ashbridge Abbott. They will spend two weeks in the Dominion, visiting in eastern cities.

Preserving the Wapiti
The three hundred wapiti placed in Banff and Jasper National Parks, Alberta, a few years ago have now increased to fifteen hundred. In addition to these there are 350 of this otherwise nearly exterminated animal in Buffalo Park, Watnigwint, and 250 in Elk Island Park.

Have you seen Johnson lately? "enquired one motoring speed-merchant of another.
"Unfortunately," remarked the latter, "I ran across him last night!"

Cells—Did the justice of the peace offer to kiss the bride?
"Yes," a woman justice performed the ceremony. She kissed the bridegroom."

Canadian Harvest Important

A Strong Demand For Canadian Wheat in World's Markets.

According to the latest crop report issued by the Canadian Government bureau of statistics, the wheat crop of Canada for 1925 is estimated at 248,625,000 bushels. Last year's Canadian wheat harvest yielded 411,276,000 bushels.
In a general review of world crop conditions the report adds, "The production estimates from eighteen countries show that this year's total world wheat crop will probably be 2,175,700,000 bushels, compared with 2,201,500,000 last year."
Judging by general conditions in other countries, the report continues, "the general outlook appears to be for a strong demand for the Canadian crop, now in its critical stages, so that the Canadian yield will again be a very important factor."

"There is an increase this year in sown acreage of one and a half per cent. in countries other than Canada and the United States the sown acreage is less, but the increase of 600,000 acres sown in Canada, and 5,187,000 acres in the United States recovers the balance."

The French crop is reported unofficially as below the 1925 yield, and France probably will be an importer this year. Floods are reported from Germany. India is not expected to be able to spare any appreciable quantity of wheat for exports."

Value Of Good Roads

Great Saving To Motorist By Traveling On Smooth Instead of Rough Roads.

Authorities who have made careful experiments covering a period of years says that the average motorist will save 2 1/2 cents a mile by traveling on a smooth instead of a rough road. This saving takes into account only the obvious factors such as wear, depreciation, the mileage, gasoline and oil consumption, and similar items. It does not extend to the value of time or other factors that are individual with each driver.

Assuming that each motor owner travels 5,000 miles a year and that half of that, or only 2,500 miles, is on rough roads, we find that in the United States 20,000,000 motorists are enduring 50,000,000 miles of rough travel. If such travel costs an extra 2 1/2 cents a mile, then our motorists are paying an annual sum of \$1,250,000,000 for the privilege of riding on rough, uncomfortable roads.

Beware of the chronic hand-shaker. He may have something up his sleeve.

Clemenceau Appeals To U.S. Not To Treat War Debts As A Purely Commercial Matter

American Settlers

This Year Witnesses Increased Movement of Settlers From U. S. To Canada.

Marked activity in the movement of settlers from United States to Canada is noted by the department of immigration and colonization in the month of June the Canadian government agency at Fargo, North Dakota, was instrumental in moving to Canada 195 settlers, who, with their wives and families, represent a population of 215 people. They brought with them cash and effects valued at \$195,550—almost half a million dollars. These settlers were almost entirely from the states of North Dakota and Minnesota, and were destined to Manitoba, Saskatchewan, Alberta, British Columbia and Ontario. They are practical farmers, attracted by the advantages which Canada offers to agriculturists. Forty of these families made the trip to their new Canadian homes by automobile. The movement from the Fargo territory in June, 1925, was 125 persons greater than June, 1924.

Large Timber Shipment

Sent From British Columbia For Construction of Quebec Town.

Three million, seven hundred and forty thousand feet of board timber from British Columbia, considered a record shipment, has reached Arvida, P. Q., and will be utilized for the construction of the new town. This timber was shipped on board the S.S. Election from Vancouver three months ago. The cost of the shipment by water alone was \$55,500. And for 62 days a gang of 22 men working in two shifts were engaged in unloading the large cargo. From Fort Alfred Arvida, a distance of about 20 miles, the timber was transferred by 241 freight cars. The greatest part of the timber will be used for the construction of service dwellings, where a population of 10,000 is expected to be residing within the next three years.

Seed Oats From Manitoba

The Solgirth Out Growers' Association, of Solgirth, Man., are preparing 20,000 bushels of registered seed last year and has practically disposed of it all, shipments going to every province in Canada, to the United States and to the Argentine.

"Old Father Victory" has again come to the defense of France in her hour of trouble.

George Clemenceau, wartime premier, appealed to President Coolidge in an open letter not to treat the settlement of war debts as a purely commercial matter. The proposed arrangement for the settlement of war debts he asserted to be impossible of fulfillment and to threaten the independence of France.

The spirited appeal of the "Tiger," who will be 45 years old next month, came with dramatic unexpectedness at a moment when the French Government is hesitating before taking a definite position on the ratification of the proposed agreement.

The Franco-American negotiations leading to promise of payment, the former premier declared, are impossible of fulfillment because they would result in a loan "with solid security in the shape of our territorial possessions, as was the case for Turkey." He warned President Coolidge that France will never accept such a thing.

"France is not for sale—even to her friends," he said. "Independent she came to us. Independent we shall leave her."

For once, the "Tiger" has apparently taken off the famous gray gloves of his diplomacy. He utterly compared the separate treaty made by Russia at Brest-Litovsk during the war. Both were made, he charged, without the slightest attempt to put matters with their comrades in arms.

"After making a blood peace with the common enemy," he said, "today a military peace is being decided with the allied and associated powers."

M. Clemenceau entreated President Coolidge not to consider the war debts as purely cash transactions between creditor and debtor to be settled by technique experts. The United States attitude, he said, had made France uneasy today lest the United States be taking up "the old time policy of England of sending Europe by playing off one continental power against another."

A New Breed Of Cattle

Yakalos, Now Being Developed At Walwyn's National Park.

The new breed of livestock called "Yakalos" is being developed in the national park at Walwyn by crossing buffalo with yak.

"Yakalos" combine the most producing qualities of the yak with the foraging characteristics of the buffalo, said G. B. Rothwell, director of the animal husbandry division of the department of agriculture. The new animals breed true to type, he said, and have proved more adaptable than "cattalo," evolved several years ago by crossing buffalo with domestic cattle. Cattalos are sterile.

The meat of Yakalos is described as almost identical with beef, aside from being finer grained. The animals are hardy, can forage for themselves, are capable of winning in open, and are resistant to many of the common diseases of domestic cattle.

Seeding Down To Grasses and Clovers

The Proper Place in Rotation to Seed Grass and Clover Mixture.

Tests made during eleven years at the Brandon, Manitoba, experimental farm in order to determine the proper place in a rotation in which to seed down a grass and clover mixture have brought on several important factors.

It is shown that the use of a narrow crop, especially wheat, is more economical than seeding the grasses or clovers straight. Seeding on corn land is advantageous provided the corn has received good cultural management. The application of manure to first year stubble previous to seeding down has not proved to be economical. Maximum yields are not likely to be obtained where second year stubble is seeded down.

Big Wool-Clip

It is anticipated that the wool clip in Southern Alberta will reach the 2,000,000 pound mark this year. Of this a million and a quarter pounds will be handled through the Canadian Co-operative Wool Growers' Association. The fleeces this year are stated to be unusually large.

Sea Fish Hunt

The total quantity of sea fish landed in Canada last month on the Atlantic and Pacific coasts was 106,200, 200 pounds, valued at \$2,685,168, compared with 96,238 pounds, valued at \$2,257,812, during March, 1925. This is an increase of 4,141,356 pounds.

Tony, Waiter and Angler

When one goes camping in the wilds, it is absolutely necessary for one to provide the food, cook, then eat it. But why one should catch fish, supervise the cooking of it and then serve it to people whom one has never seen before seems to be the act of one suffering from over-kindness. However there is one man in this country who feels it a duty to do this generous act, and instead of boasting of his prowess as an angler, but to help people and serve them with what he believes is the greatest food for a summer dish.

Umberto Tarrella, head waiter at the Banff Springs Hotel, and journey to the Bow River to serve guests of the hotel at most hours, takes a boat, also his fishing tackle, which is composed of the very best rods available, with every known fly, and journey to the Bow River to take the bait. Often he may be seen as early as 5 a.m. with his inevitable fishing rod. When he has had good sport, he takes the fish to the chef of the hotel and supervises the cooking with the experience of the best Italian or French chef.

Then he himself, makes a special point of serving the fish to people who desire the delicious meal, and his smile of gratification grows with every catch for his fish.

He first introduced the idea on the morning of the opening of the new dining room of the Canadian Pacific Hotel at Banff. The following morning he had more orders than he could cope with, so now he spends every valuable moment to secure the fishery business for his friends, as he now calls the guests.

WORLD HAPPENINGS
BRIEFLY TOLD

A Reuter dispatch from Moscow says it is semi-officially announced that the Russian Baltic fleet has sailed for manoeuvres in the Baltic Sea.

The Grand Army of United Veterans of annual convention at Kamloops, decided unanimously to enter the Canadian Legion of the British Empire Service League.

Believed to be one of the oldest negro women in Canada, Mrs. Matilda Parnell, aged 104, died recently. Up until a year ago she was active in her life-long work as a laundress.

Col. Sir William Wilson Lloyd, Johannesburg, general manager of railways and harbours, South Africa, will accompany the South African president, General James Hertzog, to the imperial conference.

A new era in air transportation with installation of fast freight and passenger service between municipal airports in Winnipeg, Man., and the principal cities of the north west states is in prospect as a result of the Ford Reliability Aeroplane Tour.

Vergil, immortal singer of old Rome, is at last to be honored with a monument in his home town. A national subscription, to which the government is adding 100,000 lire, is to defray the cost of a statue in Mantua, Lombardy.

Smith Helps Hungary

Giving His Best Efforts in the Cause of International Friendship

Mr. Jeremiah Smith was appointed by the League of Nations financial commissioner for Hungary. That was two years ago. Hungarian economic conditions were in a state of chaos. Within the twenty-four months Mr. Smith worked so much of sound re-organization that he was able to report to the league that Hungary's finances were in "excellent condition." His job being finished, he prepared to return to his home. It was then that the Hungarian premier tendered him his salary of \$100,000 for the two years of service. It was not excessive compensation for the accomplishment involved. But said Jeremiah Smith, Jr., of 4 Berkeley Street, Cambridge, Mass.:

"Give it to charity. Your poor need more than I do. The only compensation I desire for my work is the friendship of the Hungarian people."

Mr. Smith does more than help the poor of Hungary. He helps the cause of international comity. He inspires the development of a finer and broader humanity. He gives the world the highest spectacle of a brilliant intellect serving the ends of a kindly and generous heart. Rich, we said he was. He is opulent. He is surcharged with those riches of the mind and spirit which the world never envies and would be a better world if it more covet. Mr. Smith has given Hungary \$100,000 and the United States something to be proud of.—Worcester, Mass., Telegram.

Sequi Faces A Huge Deficit

Philadelphia Exposition is Confronted With A Debt of Large Proportions. The Sequelential Exposition not only faces a deficit but is confronted with a debt of large proportions. The operation of its amusements on Sunday, but it is also confronted with a huge operating deficit and needs \$2,700,000 to meet outstanding obligations. Despite these developments, however, Mayor Kendrick took an optimistic view of the situation, asserting that the celebration of the one hundred and fiftieth birthday of American independence was "cheap at any price" and that he was confident the citizens of Philadelphia would support and encourage the Sequi directors.

Woman Is Mining Engineer

Doing Practical Work in Region of Sarre Valley

Mlle. Schrammek, a graduate of one of the technical schools of France, obtained her diploma as a mining engineer and she is now doing practical work in the mining region of the Sarre Valley. She is the daughter of the minister of the Interior under Poincaré. She does several and does not second the mine to supervise her work. She is wealthy and need not follow a profession but is peculiarly adapted to it.

"Conductor, I hope there won't be any collisions."

"Oh, no fear, mum."

"I want you to be very careful. I've got two dozen eggs in this basket."

"The age in England today is a woman's age," says F. B. Robbins, but who can say what a woman's age is?

W. N. U. 1642

Canada's National Emblem

Union Jack Is Only Suitable Flag For Dominion

What objection can be raised to the Union Jack as Canada's national emblem? This Dominion is a part of the British Empire. No person openly advocates separatism. But the only argument that the Sentinel can think of for a distinctive flag must rest upon Canadian independence.

Assuming that Canada is to remain a part of the empire, the Union Jack is not only suitable, but highly desirable as the flag of this Dominion. It is an emblem of liberty. It has a history of which every man and woman of British blood should be proud. It is emblematic of the highest type of civilization to which mankind has yet attained. It speaks of service, not only to one race, but to all races—world service in the broadest sense of the term. It is respected by all nations, and it is feared by aggressors against freedom.

The Union Jack is part of an inheritance that includes even-handed justice to all classes, the right to civil and religious liberty, personal freedom to live according to one's conscience, and glorious traditions that have marked the advances of humanity to higher levels with each succeeding generation.

To supplant it with any other design, no matter how artistic it may be, is to rob the Canadian people of their invaluable inheritance accumulated through centuries of earnest striving for what is best.

Let Canada keep the Jack as its national emblem.—Sentinel, Toronto.

Prince Camps With Scouts

His Example Should Attract Support For Worthy Institution

The announcement that the Prince of Wales will go into camp with the Welsh Boy Scouts will not only fill with joy the hearts of the Welsh contingent, but will serve as a well-merited encouragement to every scoutmaster. In every part of the empire the scoutmasters are quiet and conscientiously carrying on the work of that admirable institution, the Boy Scouts, sacrificing what is commonly a scanty leisure to the welfare and the happiness of the lad who is not endowed with too much of either. The benefit derived by the children is inestimable. They learn the rudiments of discipline, which they enjoy; they learn the art of how to manage a camp, how to cook, and generally to make themselves and others useful and happy. The example of the Prince will, we hope, serve to attract even wider support for what is one of the best institutions in the country.—London Morning Post.

New Industry For Palestine

Government Establishes Plants to Take Salt From Dead Sea

The Palestine Government proposes to erect a plant for the recovery of thirty odd billion tons of salt from the Dead Sea, and very soon huge chemical factories and warehouses will be established round the lake, and the peace and quiet of centuries will give place to the ceaseless whir of wheels. It is remarkable that one of the most desolate spots in the world should suddenly acquire such tremendous economic importance. Of all the billion tons of salt in the Dead Sea, only about ten tons is common salt. The remainder consists of salts of potassium and magnesium, an abundance of which will make Palestine the richest potash country in the world. In appearance this strange sea challenges the Mediterranean with its clarity and blueness, but so deathly still are its waters that they have earned it its gruesome name.

Potential Murderers

Vendors of Deadly Alcoholic Brew and Their Work

What must be thought of the connoisseurs and the vendors of this fatal brew? They must know it to be deadly in its effects, and that anyone who drinks it does so at the risk of his life. Are they not potential murderers? Technically they may not be guilty of murder, for their purpose is not to kill but to make money; and yet, callously careless as they are of human life, and knowing as they must that every bottle they sell may second the mine to supervise her work. She is wealthy and need not follow a profession but is peculiarly adapted to it.

"Conductor, I hope there won't be any collisions."

"Oh, no fear, mum."

"I want you to be very careful. I've got two dozen eggs in this basket."

"The age in England today is a woman's age," says F. B. Robbins, but who can say what a woman's age is?

"IDEAL" Fashions

Slender Lines Find Favor

The rich designs of the bordered materials form decided trimming features in themselves. Cut to slip over the head, and with a convertible collar that may be fastened high, this distinctive-looking frock for daytime wear is developed in bordered crepe of graduated polka-dot pattern. A single large tuck in front of each shoulder gives easy fullness over the bust, and the long full sleeves are gathered into narrow wristbands. There are two large patch pockets, and a narrow belt is worn at the low waistline. No. 1197 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 but requires 3 1/2 yards 36-inch, or 2 1/2 yards 45-inch material as pictured. Price 20 cents.

The secret of distinctive dress lies in good taste rather than in lavish expenditure of money. Every woman should want to make her own clothes, and the home-dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

Will Cover Large Range

Many Subjects To Be Discussed At Empire Parley

The agenda of the imperial conference to be held in London in October will cover a wide variety of subjects. The agenda is incomplete as yet, but some of the matters to be discussed have been announced. These are promotion of inter-imperial trade, including the work of the imperial economic committees and the empire marketing grant; overseas settlement; economic and currency within the empire; exhibition within the empire of empire films; the work of the imperial shipping committee; airship service and empire air route; coordination in technical liability of state enterprises to taxation.

There are still some subjects to be announced, Sir Henry Dargy, acting minister, said.

Gave Practical Demonstration

Famous Scientist Records "Heart Beats" of Snagdragon

Sir Jagadis Chandra Bose, the famous Hindu scientist, who says plants have heart pulsations, caused some of a sensation before the British Association by revealing the "heart beats" of the snagdragon by means of a delicate apparatus.

His apparatus, part of which was introduced to the assembled scientists for the first time, recorded the action of the snagdragon's heart beat.

Sir Jagadis also demonstrated that nervous reactions in plants are stimulated by drugs in the same way as human beings.

Automobiles in Canada

Canada Has a Registration of 725,000 automobiles.

Eight inhabitants in every 100 in the Dominion owned no motor vehicles last year. The greatest density of cars is found in Ontario, where there are 11.1 cars per 100 population. British Columbia ranks second with 10.1 cars per 100. Then came Saskatchewan with an average of 8.5, Alberta with 8.3, and Manitoba with 7.8.

The Wheat Pool

Greatest Achievement in Co-operative Marketing That the World Has Seen

Over 125,000 farmers in Western Canada, members of the Canadian Wheat Pool, are cashing checks totaling \$7,000,000. This sum of money represents the second interim payment of 20 cents per bushel on last year's wheat to the members of the pool. It comes to the farmer at an opportune time to meet the expense of the harvesting operations.

Members of the Canadian Wheat Pool receive most of the payment for their wheat as soon as they deliver it at the elevators after the harvest. The balance is later paid out in interim payments according to the prices obtained in the markets of the world by the Central Selling Agency of the pool.

The Canadian Wheat Pool is an organization made up of over 125,000 actual farmers in the three prairie provinces of Western Canada—Manitoba, Saskatchewan and Alberta. It controls over 14,000,000 of the 21,510,000 acres sown to wheat in the three provinces mentioned. Each province has its own unit in the Wheat Pool. The wheat is supplied to the pool by the farmers under contract usually of five years' duration, and is sold through the Central Selling Agency, which has agents and agencies in 51 parts of the world.

Speaking at the convention of the American Institute of Co-operation held recently at St. Paul, Minnesota, Aaron Sapito, of Chicago, attorney for a group of American Co-operative associations, stated that in his opinion "the greatest single achievement in co-operative marketing in two years has been the successful formation of the Canadian Wheat Pool."

"The organization handles more than 60 per cent of the wheat of Canada and virtually dominates the cash wheat market of Canada," said Mr. Sapito, "and all of that without political interference or internal huckstering. The farmers of Western Canada have achieved their success through one thing—organization."

Royalty To Visit Australia

Duke and Duchess of York to Sail on H.M.S. Renown

It is officially announced that in order to mark the importance of the opening of the Commonwealth Parliament in Australia's new capital, Canberra, on May 9, 1927, by the Duke of York, who will be accompanied by the Duchess of York, H.M.S. Renown will be detached to the Antipodes. They will visit New Zealand as well as Australia.

Their royal highnesses will probably leave England about the middle of January. They will proceed via the Antarctic Channel to New Zealand, where they hope to arrive in the latter part of February.

The New Zealand visit will be taken in order to avoid unfavorable climatic conditions that might possibly be encountered later.

The Duke and Duchess will arrive in Australia in the latter part of March, and they will visit all the Australian states, except Western Australia, where the ceremonial duties will be performed later. They will be the reigning prince of their tour. They will visit Western Australia enroute homeward.

Planning New Air Line

Would Link Up Winnipeg With Cities of Northwest States

A new era in air transportation with installation of fast, freight and passenger service between municipal airports in Winnipeg, Man., and the principal cities of the northwest states, is in prospect as a result of the Ford reliability aeroplane tour.

A decision to link the northwest by an air chain was reported at a conference in St. Paul of representatives of the tour and delegations from the Manitoba capital and four states.

The conference adopted a resolution calling upon the cities of this region "to unite on a definite and active policy for the immediate development of commercial aviation."

Each municipality will be required to provide an air port.

Canada's Radio Industry

Canada's radio industry, although as yet young, is progressing rapidly.

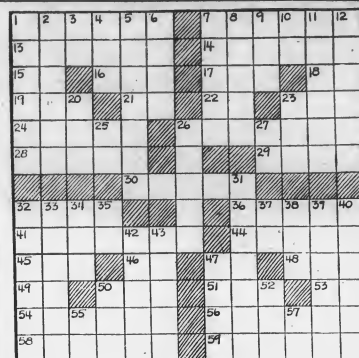

Nearly fifty per cent of the receiving sets of Canadian manufacture were sold last year, these costing more than two million dollars to the manufacturers. Several of the leading American radio concerns have opened up Canadian branch factories, employing Canadian labor.

More than 800,000 girls employed in the factories of Japan receive an average wage of less than 20 cents a day.

"Do you like shrimps, Helen?"

"Oh, George, you're not so small!"

SUNDAY SCHOOL LESSON

AUGUST 22

THE TEN COMMANDMENTS: DUTIES TO GOD

Golden Text: Thou shalt love Jehovah thy God with thy heart and with all thy soul, and with all thy might, Deuteronomy 6:5.

Devotional Reading: Psalm 19:7-14.

Explanations and Comments

The Preface to the Commandments: The appeal to history, verses 2, 2: "And God spoke all these words": We call these words the Ten Commandments, the Decalogue (from the two Greek words deka, ten, and logos, word). The children of Israel had already attained to a knowledge of these religious and moral principles; they knew that they should not worship idols and should not kill—but here at Sinai they learned that these precepts were from God. "You have thought that they had found out all this for themselves, but the Lord had been the Spirit of the Lord. It is important for us to remember that God was in all the process of man training which led up to Sinai, as well as at Sinai itself" (Bishop Francis J. McConnell). "We cannot suppose that Moses was a new mechanical instrument in conveying their laws to Israel from Jehovah, the embodying great principles of religion or civil order by practical institutions. God uses instruments that are fit" (Dr. A. B. Davidson).

Did Not Claim Reward

Jewels Taken in London Robbery Are Returned Anonymously

The recent return, anonymously, without a claim to the \$3,000 offered for its restoration of a pearl necklace valued at \$75,000 which was stolen from a jewel case, adds another chapter to the romance of rewards, says a London paper.

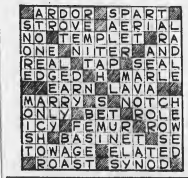

In connection with a still more sensational robbery—that of a pearl necklace worth £150,000—a reward was obtained in unusual circumstances. The wife of one of the thieves, in order to save her husband, put the article into a matchbox and dropped it into a gutter in the north of London.

It was found by a plumber's mate, who, having filed his pipe, discovered that he had met a match, and picked up the box in the hope that it contained one. When he saw the necklace, he thought so little of it that he tried to sell it for a bottle of beer; but in the end he got the reward—nearly thousand pounds—offered for its recovery.

Possible to Broadcast Heat Waves It is no more improbable to broadcast heat waves than it is to broadcast sound waves, according to Prof. E. S. Dibble, of the Carnegie Institute of Technology. Discovery or invention of instruments capable of controlling heat waves, and a detector which could read the waves and amplify them are the main need.

There are two ways of running for office—the other one being when the alarm clock doesn't go off in time.

Answer to Last Week's Puzzle

Homage To Britain

France—Depends Upon Britain To Bring About Restoration of Europe

Intransigent (Paris) says: We should be lacking both in foresight and in gratitude if we did not render our homage to Great Britain. Britain is not like her haughty kinsmen across the Atlantic, threatened by an unprecedented crisis of prosperity. She is in gratitude if we did not render our homage to Great Britain. Britain is not like her haughty kinsmen across the Atlantic, threatened by an unprecedented crisis of prosperity. She is in gratitude if we did not render our homage to Great Britain. Britain is not like her haughty kinsmen across the Atlantic, threatened by an unprecedented crisis of prosperity. She is in gratitude if we did not render our homage to Great Britain.

Not Coming To Canada

Duke of York Goes to Australia Via Panama Canal

Official announcement shows the Duke and Duchess of York will not pass through Canada on their visit to Australia for the opening of the new Commonwealth parliament at Canberra next spring. Their highnesses will travel via the Panama Canal and return to England through the Suez Canal, therefore not touching Canada. They are visiting New Zealand as well as Australia.

No Alibi For the Choir

A young deryngram gave out little weekly church notices as follows:

"On Thursday, God willing, there will be a mothers' meeting at 5 p.m."

"On Friday, God willing and the weather permitting, we will hold the church committee meeting at 7 p.m."

"On Saturday, in any case, there will be the usual church practice at 8 p.m."

—Boston Transcript.

Cornish Village Holds Record

An oldster's village in Cornwall, England, holds the record for the longest life span of its inhabitants, according to population, then any other place. More than 170 of its inhabitants, or one in every nine, are seventy years of age or more.

This Washboard will wear for Years

IT'S so strong you could stand on it without doing it any harm. The rubbing surface is heavy SMP Pearl Enamel, positively smooth as glass, but unlike glass, it cannot break! And it won't wear out, like zinc. The back is heavily re-inforced with wood. It's a washboard that will last for many years, and remember, it is SMP made.

CHAPTER XI—(Continued)

"I'm afraid I would be awfully funny to you," she said to Yvonne, her excitement at the prospect playing in her voice. "I can't be still, for long, because there is so much to me that I can't think of, that I just run around in circles."

"I'll help you, perhaps," Yvonne assured her. "I shall have as enjoyable a time about helping you launch yourself, as you, yourself. There will be a motor car to buy—and I've never over my fondness for picking out motor cars; and jewels and clothes—it will be a lark, truly!"

Joanna would have yielded to Yvonne's suggestion, that to-night would be as good as any other time, but while they waited in the foyer of the restaurant-club for Brandon's car and Yvonne's, Brandon murmured to her:

"Be lions made after midnight are not always safe! Yvonne will come you tomorrow, as warmly as to-night. And tomorrow will do you just as well. I am going to drive you home."

"You mean," Joanna said, lightly, "to the rooming house. Wherever I do, or wherever I go, you must remember that I haven't any—"

She waited a while, while she bit at her

lips. Then she finished: "That I haven't had any home, for a long time!"

"Why didn't you want me to go to Miss Coutant's tonight? It would have been much easier than tomorrow."

"A wholly selfish reason," Brandon informed her. "You're an important person to someone, you know, for some reason. Decisions you make now are of consequence. I'd rather not have the responsibility of delivering you into anybody's guidance. Then you will not be able to tell me about it later on, if you feel like it."

"Do you think I shall ever be sorry?"

"That doesn't follow. Certainly, though, Yvonne Coutant represents a distinct theory of what life owes its dependents. You wouldn't adopt her as a counselor in the same impulse that would lead you to go in for—let us say, uplift!"

"Yet you want me to go to her, to learn from her what to do with my money, to spend it her way, and to become like her? You knew she was going to ask me. You arranged it."

She saw that she had struck home. For a brief moment Brandon was perturbed. Then he smiled to her.

"When you begin to accuse me, I know I'm getting on. It is murred."

"Oh, I shall let you go on fast enough until I know what's what. Then—"

"And then what?"

"There's no use going to a funeral unless somebody's dead, is there? We won't be disappointed now."

When he stood with her for parting minutes in the rooming house reception hall, where a dim light burned, his grim reproach to young ladies who breed in from midnight to dawn, Brandon suddenly took Joanna's hands in his and gently drew her to him until she stood quite close, so that she had to lift her chin to look into his face.

For a moment she was agitated, stricken. It was the pride of a kiss, she thought. She didn't want Brandon to kiss her. Her lips burned at the threat of it. She would not protest if he asked her, or if he took his caress without asking. But it would spoil the evening. Still, when spurs were decent and had contributed what might be called a good time for lack of a better phrase, there was but one coin with which to reward them—the coin that passed frankly as currency. That she didn't want Brandon to take it, and he didn't.

He held her hands and looked down into her eyes silently. She was glad, gaily, unafraid, but quivering a little. She had reasoned to herself that tonight she had discovered the clue to her fear and dislike of this cynical, good-looking, perfectly polished man, who impressed her always as if he was taking charge of her. It would be woman, she thought. The woman in her leaped to the defensive before him, and with a sense of futility. Kenneth would be able to battle on his own ground. Brandon tortured women, she had concluded. She wasn't ready yet to meet him fairly.

But he spoke softly. "Do you know," he said, "I shouldn't be surprised if you'd win through after all."

She caught her breath. "Win through? Why—what?"

He dropped her hands instantly, and his manner changed. "You must forget that," he said, smiling again. "It's another case of a funeral with nobody dead yet. At least don't remember it for a long time."

George, her own new hats and wraps and gowns, Joanna's shower of gifts, hung from the door top, the chandelier and either side of the mirror, so that she might put back on the bed pillows and examine them, was awake and waiting. She refused all invitations for the evening, both continental and illinois, frankly admitting she couldn't leave her wardrobe at home alone. Joanna then left her momentary depression, the aftermath of Brandon's sententiousness, and plunged into a gay recital of the night's events. Then George broached her own news.

"John was here tonight," she announced. "He was at the bank to-

day. Mr. Egglestone sent for him. Mr. Graydon at the store had told Mr. Egglestone what you had said—that John had suggested the place the money came from. The bank wanted to put him right. John's got it all through his half baked mind and he's like a bird dog that's been pointing the wrong way."

Joanna sank onto the bed, the whiteness haunting her eyes again. Her plans for the morrow began to crumble, and in their place rose something dim, vague and unshapen, but before she stood still by side with John. Then with a petulant shake of her shoulders she reassembled her plans, and the arrogance came back into the fold of her chin.

"But he hurt, George. I don't think—"

"Oh, you can arrange things to suit yourself," George assured her wisely. "It's not six cylinders under the hood may be, but only one works. I've always told you he was full of carbon. He's frightfully cut up."

"That's not it. I knew he would be some day. It wasn't me he suspected so much as he was anybody, any girl, I mean, who's got knees and isn't ashamed to show them. I'm going to—"

What? George prompted her, but Joanna bit her lips and wouldn't finish her sentence.

An Ingenious Contrivance

Wonderful Provision of Nature For Seals and Camels.

The fact that the seal gets credit for being the cleverest diver in the animal world may be due to a very ingenious contrivance in his nose, each nostril being provided with muscles which close it hermetically at the owner's will. And the shape of the nostrils is such that when the nostrils are closed not a drop of water can enter. With seals the closing of the nostrils at the moment of diving has become an automatic process. There is a similar remarkable application of the same principle in an animal far removed from the seal. The seal is a water animal. The other owner of a nostril is the camel, an inhabitant of the waterless sandy deserts. The camel is not troubled with water, but he is troubled with dust. If the camel had not nostrils which were perfectly dust-tight he could never endure the dreadful sand and dust storms.

Anti-British Sentiment

This Propaganda Is Spread All Over France

The British Government was seriously exercised by the flood of anti-British propaganda which was spread all over France, stimulated by the fall of the franc.

White Paris has shown particular antagonism to Americans, the French people in the country attribute the rise in the cost of living to the pound sterling and are still inclined to regard most foreigners as Englishmen.

of irritation and hostility towards Britain all over France.

This is due, of course to ignorance of the situation, but its existence is nevertheless disturbing.

The Boundary Line

A Path Leading From One Neighbor's House to Another

Speaking of that boundary line—where in all the world is there a boundary line between two countries that means so little of what international boundary lines all too often do mean—suspicion, suspicion, hate, fear and the ugly devil the human mind produces to lead it into wars and other troubles?

Why, the boundary line these Duluth men have drawn across is not a dividing line at all, not a bit more than the friendly path that leads from one neighbor's house to another's—Duluth Herald.

Water: "A customer wants to know how the tongue sandwiches are."

Proprietor: "You tell him that the tongue sandwiches speak for themselves!"

New Theory About the Moon

Was Formed From Layer of Earth's Crust Is Belief

A new theory is now being put forth that the moon was formed from a layer of the earth's crust, about 41 miles thick, and covering about two-thirds of its total area, and which was pulled off by the attraction of the sun. The crust was left on earth formed the continents. This theory also accounts for the fact that while, according to generally accepted ideas, masses of lighter density such as make up the earth's crust should cover the entire surface of the globe, they actually cover only about a third, the missing two-thirds consisting of the moon. The new theory also fits in with the ideas of a German geologist, Professor Alfred Wegener, who believes the American continent was originally united with Europe and Africa, and that it floated away to its present place. This would not have been possible so long as the entire earth was covered with such a crust, but after the moon had been torn away it was possible for the continents to separate from their long embrace.

A Queer Old Document

Professors to Trace Saxon King's Pedigree Back to Adam

In the library at the Herald's College, Queen Victoria Street, E.C., London, Eng., is a queer 16th century document, the history of which is unknown. It professes to trace the pedigree of the early Saxon kings right back to Adam and Eve, among the names of those appearing in the genealogy being Our Lord, Alexander and Nebuchadnezzar. It contains the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera, indigestion and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera, indigestion and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

J. S. Woodworth Labor Leader Tells Calgary Audience Why Labor Party Supports King.

J. S. Woodworth, Labor member for the North Centre Winnipeg riding, speaking at a Labor political meeting in Calgary last Friday, said that the Labor members of parliament at Ottawa decided to support the Liberals because the King government brought in the following legislation desired by Labor:—Old Age Pensions, Unemployment, and repeal of obnoxious amendments to the Criminal Code and Immigration Act.

In his address dealing with these matters, Mr. Woodworth said:—
"We backed the Liberals because they were in favor of what Labor was fighting for. And it is only fair to say that the King government honestly tried to fulfill its promises, but the Conservative Senate threw out the old age pensions and the repeal of the obnoxious amendments to the criminal code and immigration acts. Action, however, was taken to deal with unemployment. Mr. Meighen fought the repeal of the deportation legislation, but in the fight we secured a copy of a telegram which Meighen sent in 1919." The telegram stated that Labor leaders should be deported and that any doubt he (Meighen) had about the legality of the action could be considered afterwards."

Most of our great men come from the farms; but few go back to them.
